Subject: Question re Anaconda Atl-Rich. Background Water Quality Assessment revision dated 7/15

Hello Gentlemen:

We were introduced to the Atlantic Richfield Background Water Quality Assessment revision of 7/15 for the Anaconda Mine at the August meetings about the mine.

I found the main document on Teratech, and Appendix C, but I would like to look at the Figures, and can't find them on Tetrtech.

Could one of you please steer me in the right direction? There are paper copies in Yerington, but I live in Washoe Valley.

Many thanks,

Susan Juetten
